The Industrial Revolution Riverfront Pizza and Beer at the Seaport

Pin it

Look, we've gotten pretty close, right?

So we don't think it's too bold of us to assume you'd like, at some point soon, to be drinking under the warm sun by a river.

Just tell us if we've overstepped our bounds on that one.

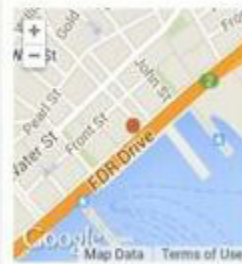

If not, here's *Industry Kitchen*, a waterfront behemoth of beer, cocktails and pretty much *every kind of food*, opening Monday near the Seaport.
